Dear ACNT and SSNT Health Science Students,

We recently notified you by email on 26th March that there were some changes occurring to four of our Health Science courses. Please ensure you have read that email, a copy of which can be found here for Bachelor students and here for Diploma students.

As previously stated, there is no change required for your current enrolment for trimester 2 and subject selection and timetabling will occur as normal in a few weeks.

However, we have received a number of questions in regards to whether interested students from our current courses are able to transfer into these new courses. Whilst you can certainly apply to transfer, you will first need to determine whether you are eligible. This is because we will only have a limited number of subjects on offer, primarily for brand new students, and it’s important we can optimise any credits for you.

If you are interested in transferring, please use the flow chart below to determine eligibility and then any next steps.

We will continue to offer webinars and on campus opportunities to share new information as it becomes available. Your questions are important to us and we are endeavouring to answer them as quickly as we can. If you have any questions, please email healthsciencechanges@laureate.edu.au

Thank you

Your Campus and Health Science Teams
